NO SALE...Merry Christmas and Happy New Year
Wednesday, January 4th First Sale of the Year
Good Sale...some smaller lots of good local cattle
Wednesday, January 11th
Good Sale
Wednesday, January 18th
Regular Sale

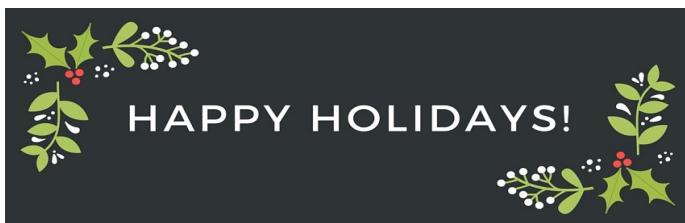

The market has stayed strong right along. We have seen most all classes sell very well each week! The light stocker weight cattle with condition, and the right shots have sold at the top of the range week in and week out picking up some over the past two weeks. Plainer and off cattle of this weight class selling up and down depending on the week and who needs them. Middle and heavy weights also selling well but not seeing the same uptick like the lighter ones after the nice rain. Look for both classes to stay strong with the light ones leading the charge. We will see limited offerings, moving forward, and this could add even more to the lighter end.

Butcher cows have been up and down from week to week, with the very good heavy cows or younger cows selling well above the rest of the butcher cows. Look for supplies to tighten and this market to be better as we go!

As always this time of year we talk about branding and this is the time to get your calves set up on a successful shot program. If you have any questions as to what is expected by the buyers, and what will give you more money for your calves, please give me a call anytime!

Our yearly western calendars are in, please feel free to pick some up at our office or our receiving yards. No sale December 21st and 28th... we wish you a very Merry Christmas, and a Happy new year!

...See you at Ringside, Randy

Your Complete Marketing Service!

Basic Vac (At branding)

Inforce 3

One Shot BVD

Ultrabac 8

Show this card where you purchase your vaccines to make sure you get the right ones!

Premium Vac (3 to 6 weeks prior to marketing)

First shot with Basic Vac protocol plus second shot with: Bovi-Shield Gold One Shot

Ultrabac 7 Somubac

Have you tried Multimin?

Many producers have been adding Multimin to their lineup while preg checking cows and at vaccination time on the calves. Proper trace minerals are necessary for optimal fertility, vaccine response and health in cattle. More uniform groups of healthier calves equals more pounds to sell at weaning.
